## Technical Bulletin: 2019 Door Sill Transitions & Releases

This technical bulletin has been designed to highlight the below changes and updates to Endura's offering of exterior door sills:

### Summary of Updates and Improvements

The product line changes include:

- **Elimination of all wood substrate sill platforms:** due to the increasing demand for composite-based products, production of traditional/wood-substrate sill products will be discontinued.
- **Introduction of the updated Z-Lineal sill platform:** the current Z-Lineal Classic platform and the Z+ platform, have been merged to deliver unlimited cuttability, full caulking surface and a thermal break.
- **Introduction of a new Oak Adjustable Z-Series platform**
- **Introduction of a new Exposed Nose (Z-FEN) Sill platform** for 2/6, 2/8 and 3/0 Fixed Inswing sills.
- **Introduction of the Replaceable Deck Sill™ (RDS) platform:** Now available in three widths, 4-9/16", 5-5/8", 6-9/16" and 7-5/8" for Single, French, Hinged Patio and Continuous Sidelite Sills.
- **Introduction of a new Cuttable Injection Mould platform** for All-Aluminum Bumper Outswing Sills.

For a more detailed review of the information included on this page, please refer to documents included in the subsequent pages.

Product Category	Previous Product	New Product
Adjustable Inswing Sills	AI (Oak)	ZAI Oak
	HAI (Oak)	ZAI Oak
Fixed Inswing Vinyl	FI	ZFI
	HFI	ZFI
Adjustable Outswing	AO	ZAO
Fixed Bumper Outswing - All Aluminum	FOB AA with wood substrate	FOB AA with composite substrate
Fixed Outswing - All Aluminum	FO/HFO	No substitute

All **Wood-Substrate-Based Sills** Have Been Discontinued With Innovative Replacements Now Available for Purchase

**The New Z-Lineal Sill Platform** Delivers Infinite Cuttability & a Full Caulking Surface in a More Cost-Effective Design

**Replaceable Deck Sill™ [RDS]**  
Available in four widths!  
4-9/16", 5-5/8", 6-9/16" & 7-5/8"

June 6, 2019

**Technical Bulletin: Z-Series Platform Updates**

In summary, these improvements include:

- **Updated Z-Lineal Sill Platform** - replacing both the current Z-Lineal Classic and Z+ sill platforms.
- **Introduction of RDS Platform** - across wide range of widths and configurations.
- **New Oak Adjustable Cap & Nosing alternative** based upon our innovative Z-Series platform.
- **Current Z-Lineal Classic Platform** - available in 12/0 lengths only.

**Previous Z-Series Sill Platforms:****Z-Full Narrow (Z-FN) Platform****Z-Plus Platform**  
**DISCONTINUED****Z-Lineal Classic Platform****Updated Z-Series Sill Platforms:****Z-Full Narrow (Z-FN) Platform**  
**NO CHANGE****Z-Lineal Classic Platform**  
**UPDATED****Replaceable Deck Sill [RDS]**  
**NEW****Customer Transition Guide:**

**Customers Utilizing Z+ Sills:** Current Z+ customers may follow one of several alternatives:

- Transition to the Z-FN Sill Platform
- Transition to the Z-Lineal Sill Platform

**Customers Utilizing Z-Classic Lineal Sills:** Current Z-Classic Lineal customers should transition to the Z-Lineal Sill platform. The previous Z-Classic Lineal sill platform is still available for 12/0 sills and 3/0-3/0-3/0-3/0 Quad sills.

Please refer to the following pages for more detailed information about modifications to these sill platforms.

## Technical Bulletin: Z-Series Updated Platform Details

June 6, 2019

Z-Full Narrow (FN) Sill Platform

## Features &amp; Benefits:

- **Cost-effective, full narrow design**
- **Interchangeably compatible with ZAI, ZAIO Z-AC and ZOB**
- **Full length caulking surface**
- **Compatible with both standard nosing and tileback**
- **Integrated thermal break.**
- **Easily converts from Inswing to Outswing**

## Product Availability:

- Available Widths: 3-11/16", 4-9/16", 4-7/8", 5-5/8", 5-13/16", 6-7/8", 7-13/16", 8-5/8"
- Available Lengths: 2/6, 2/8, 3/0, 5/0, 5/4, 6/0

UPDATED Z-Lineal Sill Platform

## Features &amp; Benefits:

- **Updated Z-Lineal Substrate:** Replaces current Z-Lineal and Z+ platforms.
- **More cost-effective Z-Lineal design**
- **Infinite cuttability** for unmatched flexibility - cut to any length with ease.
- **Full-length caulking surface, full-width support up to 5-5/8"**
- **Interchangeably compatible with Z-AI, Z-AC, ZOB and ZAIO systems,** easily converts from Inswing to Outswing
- **Compatible with both standard nosing and tileback**
- **Integrated thermal break.**

## Product Availability:

- Available Widths: 4-9/16", 4-7/8", 5-5/8", 5-13/16", 6-7/8", 7-13/16", 8-5/8"
- Available Lengths: 2/6, 2/8, 2/10, 3/0, 5/0, 6/0, 9/0, 12/0
- **\*Z Classic Lineal substrate to be continued for 12/0 Lineal Sills & 3/0-3/0-3/0-3/0 Quad Sills.**

June 6, 2019

## Oak Adjustable Cap Alternative with Z-Series Modularity

## Features &amp; Benefits:

- **Traditional Look of a Real Oak Cap**
- **Z-Series Modularity:** Screw assemblies operate independently from the substrate
- **New Composite Nosing:** delivers real-oak appearance & Z-series modularity

## Product Availability:

- Available Platforms: Z-FN, (updated) Z-Lineal
- Available Lengths: 2/6, 2/8, 2/10, 3/0, 5/0, 5/4, 6/0

## Product Release: Replaceable Deck Sill™ Platform (RDS™)

You provide your customers with quality door units, until they encounter the real world of jobsite damage. Installed door units, and door sills in particular, encounter the harsh conditions of installation and ongoing construction, resulting in dents, paint and stucco damage and sometimes entirely-destroyed sills. Every option to protect the sill with sill covers, tape or any number of other measures has not worked. You've had nothing else to offer - **until now**, with the Replaceable Deck Sill (RDS) from Endura Products.

### The Replaceable Deck Sill - We've Listened and It's What Your Customers are Asking For.

In repeated focus groups, interviews and jobsite discussions, we've asked builders what they want from a door unit and entry door sill. Their answer, beyond "no leaking," was consistent: *"Help me avoid door sill damage or make it easy for me to replace the damaged sill."* Whether it's denting, scratching, paint or oxidation, the aluminum sill deck gets damaged and repairs are costly or impossible for the builder to fix without replacing the sill or, in some cases, the entire door unit. Addressing sill deck damage can also lead to a delay in the closing process, costing the builder more with every day that passes.

RDS is the **first and only** sill of its kind that enables replacement of a damaged or discolored sill deck without removing the sill system or the entire door unit. With RDS, you can deliver a solution that solves this costly problem for your customer in just a few simple steps, with tools already on hand, helping to prevent unnecessary delays and costs.

The Real World.

The Solution.

**If your customers are paying for costly repairs or replacement of damaged sills, they're paying too much. With RDS, you can provide them with a solution and savings.**

### RDS Features and Benefits:

- **Removable Sill Deck:** can be removed and replaced in the event that damage to the sill deck should occur.
- **Optional Dunnage Deck and Sill Cap:** temporary deck and sill cap can be used during construction and replaced with final components at closing.
- **Enhanced Finish Flexibility:** sill deck and sill cap can be easily replaced should homeowner hardware selections change - whether at closing or down the line.
- **Z-Series Modularity:** RDS Sills are interchangeable for easy modifications and retrofitting in the shop and field.
- **Available for all Single, French, Sidelite and Patio Applications:** including a 5-5/8" screen rail option.
- **Available for Inswing and Outswing Systems:** supporting Z-Adjustable Inswing, Z-Adjustable Inswing All-Aluminum, Z-Articulating Cap, Z-Articulating Cap All-Aluminum and Z-Outswing Bumper Sills.
- **Available Widths:** 4-9/16", 5-5/8", 6-9/16" and 7-5/8"

The Replaceable Deck Sill.

## Product Release: Replaceable Deck Sill™ Platform (RDS™)

June 6, 2019

### Available With Two Time-Saving Options:

#### The Two Systems

##### 1. Solution One - Replaceable Aluminum Deck

Replace damaged aluminum sill deck with a flawless new one in a matter of minutes and with tools already on hand.

##### 2. Solution Two - Construction Dunnage

Prevent damage with a temporary dunnage sill cap and deck during construction. Then simply install final components.

### How RDS Works: Easy as 1-2-3.

#### Solution One: Replaceable Aluminum Deck

##### Disengage.

Using a stiff putty knife, bend front edge away from the substrate.

##### Remove.

Slide the deck out, away from the sill. If needed, remove the sill cap for replacement.

##### Replace.

Slide the new deck into place and secure with a rubber mallet.

#### Solution Two: Construction Dunnage

##### Disengage & Remove.

Remove the dunnage cap and deck. Simply pop off cap and then slide off deck.

##### Replace.

Install the final cap and slide the pristine aluminum deck into place. Use a rubber mallet to secure the sill deck.

##### Done.

Create a flawless sill in a matter of minutes with tools already on hand.

**Product Release: Replaceable Deck Sill™ Platform (RDS™)**

June 6, 2019

**Product Offering & Pricing:**

## Technical Bulletin: Fixed Outswing All-Aluminum (FOB) Sill Platform Updates

June 6, 2019

Endura Products released our Cuttable Full Injection Mould Fixed Outswing All-Aluminum Sill Platform. This new sill platform will replace the previous platform utilizing a full wood substrate, which has been discontinued.

### Features & Benefits:

- **Cuttable design can be cutdown to most common lengths** for added flexibility
  - **Single:** 3/0, cuttable to 2/10; 2/8 cuttable to 2/6
  - **Double:** cuttable to 5/4 and 5/0
- **Clearly-Marked Cutdown Points** to support easy, error-free cutdowns

### Product Availability:

- **Full-length caulking surface**
- **Available in Mill, Bronze or Brass finish.**
- **Available Widths:** 4-9/16", 5-5/8"
- **Available Lengths:** 2/6, 2/8, 2/10, 3/0, 5/0, 5/4, 6/0

Features Clearly-Marked Cut Points on the Substrate

## Fixed Outswing All-Aluminum (FOB) Sill Platform Updates: Overview

As shown in the chart below, the new FOB sill platform will replace the previous Full Wood Fixed Outswing Sill Platform (FOB-F), which has been discontinued. The Wood Block Fixed Outswing Sill Platform (FOB-B) has also been discontinued.

The Block Synthetic Fixed Outswing Sill Platform (FOBS-B), Full Injection Mould Fixed Outswing Sill Platform (non-cuttable - FOBS-F) and Full Lineal Fixed Outswing Sill Platform (FOBS-L-F) have not been changed and will continue to be available for purchase.
